the xbox one is a contemporary gaming system that was developed by microsoft it was announced to the market in may 2013 and was billed to be the successor to the xbox 360 and would represent the third release in the xbox family of systems the console represents direct competition for the sony playstation and the nintendo wii in the 8th generation of video game consoles it also has features that allow it to be compared with to apple and google tv platforms prior to its release there were some concerns on some of the features possibly violating the privacy rights of users microsoft acknowledged the issues and addressed many of them before the release of the console it received mixed reviews with most of them being positive especially towards the design and the overall features innovative gaming also integrated with entertainment benefits have users captivated with the multiple functions we review the best features of the xbox so read on

now in its second edition the encyclopedia of video games the culture technology and art of gaming is the definitive go to resource for anyone interested in the diverse and expanding video game industry this three volume encyclopedia covers all things video games including the games themselves the companies that make them and the people who play them written by scholars who are exceptionally knowledgeable in the field of video game studies it notes genres institutions important concepts theoretical concerns and more and is the most comprehensive encyclopedia of video games of its kind covering video games throughout all periods of their existence and geographically around the world this is the second edition of encyclopedia of video games the culture technology and art of gaming originally published in 2012 all of the entries have been revised to accommodate changes in the industry and an additional volume has been added to address the recent developments advances and changes that have occurred in this ever evolving field this set is a vital resource for scholars and video game aficionados alike

this book formulates a new theological approach to the study of religion in gaming video games have become one of the most important cultural artifacts of modern society both as mediators of cultural social and religious values and in terms of commercial success this has led to a significant increase in the critical analysis of this

relatively new medium but theology as an academic discipline is noticeably behind the other humanities on this subject the book first covers the fundamentals of cultural theology and video games it then moves on to set out a christian systematic theology of gaming focusing on creational theology christology anthropology evil moral theology and thanatology each chapter introduces case studies from video games connected to the specific theme in contrast to many studies which focus on online multiplayer games the examples considered are largely single player games with distinct narratives and end of game moments the book concludes by synthesizing these themes into a new theology of video games this study addresses a significant aspect of contemporary society that has yet to be discussed in any depth by theologians it is therefore a fantastic resource for any scholar engaging with the religious aspects of digital and popular culture
