lead a writing revolution in your classroom with the proven hochman method building on the success of the original best seller this new edition of the writing revolution adds

valuable guidance for teachers seeking a way to bring their students writing ability up to rigorous state standards as thousands of educators have already discovered the writing revolution provides the road map they need clearly explaining how to incorporate the hochman method into their instruction no matter what subject or grade they're teaching and regardless of the ability level of their students the new edition provides a reorganized sequence of activities and even more student facing examples making it easier than ever to bring the method to your classroom the writing revolution isn't a separate curriculum or program teachers need to juggle rather it is a method providing strategies and activities that teachers can adapt to their preexisting curriculum and weave into their content instruction by focusing on specific techniques that match their students needs and providing them with targeted feedback the writing revolution can turn weak writers into strong and confident communicators in addition the method can identify misconceptions and gaps in knowledge boost reading comprehension and learning improve organizational skills enrich oral language develop analytical abilities the writing revolution takes the mystery out of teaching students to write well

the essays in writing respond to contemporary debates over the proper role of the internet in higher education steering a middle course between polarized attitudes that often dominate the conversation the authors argue for the wise integration of web tools into what the liberal arts does best writing across the curriculum all academic disciplines value clear and compelling prose whether that prose comes in the shape of a persuasive essay scientific report or creative expression the act of writing visually demonstrates how we think in original and critical ways and in ways that are deeper than those that can be taught or assessed by a computer furthermore learning to write well requires engaged readers who encourage and challenge us to revise our muddled first drafts and craft more distinctive and informed points of view indeed a new generation of web based tools for authoring annotating editing and publishing can dramatically enrich the writing process but doing so requires liberal arts educators to rethink why and how we teach this skill and to question those who blindly call for embracing or rejecting technology
